# About the Course

This Master's programme is designed for those who want to make a real difference in global health. Covering everything from procurement, storage, and distribution to inventory management, rational medicine use, and quality assurance, the course prepares you to tackle today's most pressing health challenges. You'll explore how supply chains responded to COVID-19, learn strategies for future pandemic preparedness, and gain insights into integrating new health technologies. With practical assignments and a guided master's thesis, you'll not only build strong technical expertise but also develop leadership skills to design and manage resilient supply chains that improve health outcomes worldwide.

# Lateral Entry

There is also an option for students who have completed the Post Graduate Diploma in Global Health Procurement and Supply Chain Management to join the 12-month Master of Science in Global Health Procurement and Supply Chain Management. Note that the ones who join the Master's through this lateral entry scheme will start from Module 10: Effective Responses of the Public Health Procurement and Supply Chain to the COVID Pandemic and Future Proofing Supply Systems.

# Benefits

- ▲ Expand your global outlook through peer learning with professionals from over 100 countries.
- ▲ Flexible, online, self-paced course designed to fit your schedule and learning pace.
- ▲ Mentorship during the course and on-the-job technical assistance by Empower faculty.
- ▲ A practical and applied approach with the extensive use of exercises and global case studies.

to MSc 12 months**

# About us

Empower School of Health is a global health academic research and capacity-building institute dedicated to empowering individuals, institutions, and communities. With a diverse team of health professionals, designers, and technology experts, Empower School of Health has delivered impactful global health courses to learners from more than 40 countries and 250+ organizations, working alongside UN agencies, Ministries of Health, public health organizations, international NGOs, and donor agencies.

Established in 1965 by a UN resolution, the United Nations Institute for Training and Research (UNITAR) is an autonomous body dedicated to enhancing the effectiveness of the United Nations through training and research. As a key partner of Empower School of Health, UNITAR strengthens the learners' experience by providing a structured virtual internship that enables the application of knowledge in real-world institutional settings. The partnership with UNITAR also prioritises accessibility, offering scholarships with a focus on women and professionals from government and civil society organisations in low- and middle-income countries.

Empower is accredited by the Accreditation Service for International Schools, Colleges and Universities (ASIC) and has been awarded Premier Status in acknowledgement of its outstanding standards and operations. ASIC is a globally respected accreditation body with strong institutional affiliations. It is recognised by UK Visas and Immigration (UKVI) in the United Kingdom, and is a member of the Council for Higher Education Accreditation (CHEA) International Quality Group (CIQG) in the United States, with its institutions listed in the CHEA International Directory. ASIC is also a member of the British Quality Foundation (BQF) and an institutional member of the European Distance and E-Learning Network (EDEN).

FIBAA is recognised by Germany's Accreditation Council and Switzerland's HEdA (The Higher Education Funding and Coordination Act), the European Quality Assurance Register (EQAR) and the European Association for Quality Assurance in Higher Education (ENQA). Empower Swiss, SARL (Empower School of Health) is awarded the FIBAA quality seal for Excellence in Digital Education.
