Post Graduate Diploma in Global Health Procurement and Supply Chain Management

Online

12 - Month Programme
25 Hours/Month

About the Course

The Post Graduate Diploma in Global Health Procurement and Supply Chain Management (PSM) is a 12-month online programme, specifically designed by Empower School of Health in collaboration with the United Nations Institute for Training and Research (UNITAR).

This programme is designed to equip professionals with the essential skills and knowledge required to manage the procurement and distribution of health commodities effectively.

Procurement and Supply Chain Management (PSM) plays a critical role in global health, ensuring that essential medicines and medical supplies are available, accessible, and of high quality. With health programmes typically allocating 40–50% of their budgets to PSM, it is vital to manage these resources efficiently, particularly in low-resource settings.

Course Benefits

	Open doors to career opportunities with Ministries of Health, UN agencies, donor-funded programmes, and international NGOs.
	Strengthen practical, job-ready skills by working with real-world scenarios.
	Learn directly from global experts and seasoned practitioners through interactive sessions and real case studies.
	Expand your global outlook through peer learning with professionals from over 100 countries.
	Gain in-depth knowledge of procurement and supply chain management specific to the health sector.
	Build confidence in communicating and advocating for PSM priorities within your organisation.
	Access potential internships and consulting roles through Empower's extensive partner network.
	Join a powerful network of 10,000+ Empower alumni worldwide.
	Students who complete this course are eligible for a lateral entry into the 12-Month Master's in Global Health Procurement and Supply Chain Management!

On completion of this course, the student will be awarded a co-branded and co-signed diploma from Empower School of Health and UNITAR.

Who is This Course for?

This course is designed for health professionals working in public health programmes, including those from development agencies, government institutions, NGOs, civil society organisations, and academia. It is also ideal for individuals interested in pursuing a career in supply chain and logistics management within the healthcare sector.

The programme prepares participants for roles that require expertise in Procurement and Supply Chain Management (PSM), significantly enhancing their skills and effectiveness in this field. It is particularly beneficial for:

- ◆ Public health professionals seeking to gain procurement and supply chain expertise.
- ◆ Individuals with CILT or CIPS certifications who want to apply their knowledge in health procurement and supply chain management.
- ◆ Aspiring supply chain and logistics professionals looking to build a career in healthcare procurement.

About us

Empower School of Health is a global health academic research and capacity-building institute dedicated to empowering individuals, institutions, and communities. With a diverse team of health professionals, designers, and technology experts, Empower School of Health has delivered impactful global health courses to learners from more than 40 countries and 250+ organisations, working alongside UN agencies, Ministries of Health, public health organisations, international NGOs, and donor agencies.

Established in 1965 by a UN resolution, the United Nations Institute for Training and Research (UNITAR) is an autonomous body dedicated to enhancing the effectiveness of the United Nations through training and research. As a key partner of Empower School of Health, UNITAR strengthens the learner experience by bringing institutional expertise, global perspectives, and practical relevance to the programmes. The partnership helps connect academic learning with real-world health and development contexts, while reinforcing a shared commitment to high-quality, inclusive education and strengthening the capabilities of professionals across health systems, government, and civil society.

Accreditations

Empower is accredited by the Accreditation Service for International Schools, Colleges and Universities (ASIC). The Institution has earned Premier status with ASIC for its commendable areas of operation. ASIC is recognised by UKVI in the UK, is a member of the Council for Higher Education Accreditation (CHEA) International Quality Group (CIQG) in the USA and is listed in their International Directory, is a member of the BQF (British Quality Foundation) and is an institutional member of EDEN (European Distance and e-Learning Network).

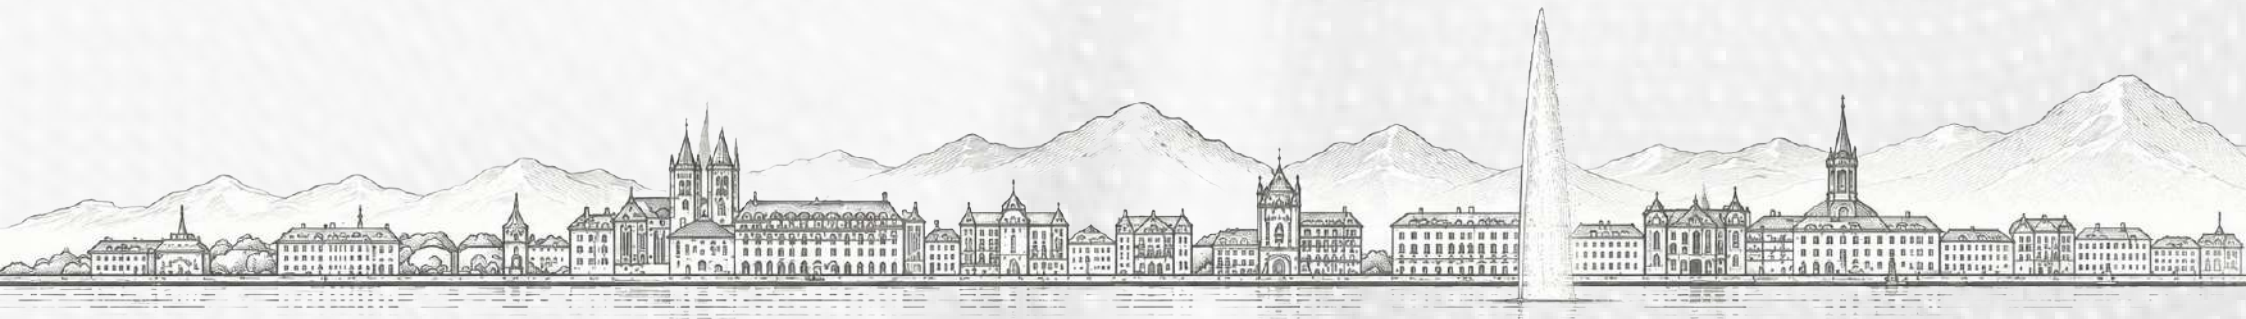

FIBAA is recognised by Germany's Accreditation Council and Switzerland's HEdA (The Higher Education Funding and Coordination Act), the European Quality Assurance Register (EQAR) and the European Association for Quality Assurance in Higher Education (ENQA). Empower Swiss, SARL (Empower School of Health) is awarded the FIBAA quality seal for Excellence in Digital Education.
