

"Empowering millions"

Calendar for Empower's Capacity Building Initiatives 2018-2019

"Universal health coverage needs global public health leaders with vision and the capability to bring about change. Empower's work in leadership and human resources for health has played a vital role in creating global impact."

*His Excellency John A. Kufuor,
Former President of Ghana*

Empower School of Health launches the Annual Training Calendar for the year 2018-19. The courses are targeted to build the capacity of professionals working in public health.

PARTICIPANTS' FEEDBACK

The workshop on PSCM in Conflict and Fragile States was exceptional. The course materials and additional resources covered the full spectrum of the medical commodity supply system and it enhanced my understanding of the topic from multiple points of view – government, local and international NGOs. This course should be mandatory for personnel at all levels.
Kathleen Downs, Pharmacist & Medical Commodities Technical Advisor, USAID, USA

Learning by working (Groupwork) in M&E of Global Health Programs was one of the most outstanding mode of delivery that produced the results that brought EMPOWERMENT- practicality of application of skills gained. I AM NOW EMPOWERED.
Gracious A Hamuza, Principal Statistician, National Malaria Control Program, Malawi

This has been a highly informative week at the workshop on Ensuring Product Quality in PSM of Public Health Programs. The practical exercise and site visits to at USP and Aurobindo Pharma were essential to 'bring it all together'. Thank you for excellent quality professors and team.
Justina Ogechi Ehirim, Procurement Officer, WHO SEARO

Empower's training on Promoting Access to Medicine was a comprehensive training package enabling the staff responsible for PSM of medicines and medical equipment by building capacity in PSM and access to medicines. It was an excellent training and the choice of training venue gave us the opportunity to understand the functioning of various UN agencies based in Geneva.
Kyaw Kan Kaung, Director (Procurement and Supply), Ministry of Health, Myanmar

It was a great learning experience. The idea of the training by actually "Learn by Doing" is a very efficient way of learning. Practical experiences on DQA and PRISM would develop more skills in the topic.
Fernando David, Monitoring & Evaluation Manager, Chemonics International Inc., Angola

I found the workshop to be an eye opener. Promoting access to medicines is not a role for just an individual but is for everyone. I have enjoyed the quality of presentation, discussion and also the exposure to various global public health organizations.
Rahel Belete, Senior Deputy Country Director, Clinton Health Access Initiative, Ethiopia
