AT A GLANCE

Empower delivered a Leadership & Management Development and Coaching Workshop for UNFPA Mali. The workshop was scheduled from 21st to 23rd January 2019 at the Azalaï Hotel in the capital Bamako and was attended by the 22 Unit Heads and Programme Managers of UNFPA.

The training was focused towards raising awareness and refining insight in the roles, responsibilities and attributes of leadership and management and helping professionals to understand and own the implications for them personally. The workshop was very well received by the UNFPA Representative, Ms. Josiane Yaguibou, as well as all other professionals.

At its core, the workshop aimed at effecting behavioral and attitudinal change at the deepest and most challenging level: self. This was done with the understanding that no sustainable organizational change can take place unless and until the individual members of that organization effect needed change within themselves. A coaching methodology was explored with and practiced by all participants, which included plenary brainstorming sessions, sub-group exercises, role plays and teambuilding activities.
