

Timor Leste needs assessment, training, remote mentoring & TA

[SAMES Timor-Leste](#) with support from WHO Country Office for Timor-Leste and expertise of [Empower School of Health](#), a global health capacity building institute, is conducting a week long training course on “Strengthening Procurement Capacity of Sames” for SAMES and Ministry of Health (MoH) [Palácio das Cinzas](#) officials.

Efficient medicines supply systems are integrally linked to strong health care systems. Adequate human resources, sustainable financing, comprehensive information systems, and coordinated healthcare partners and institutions are key components to ensure uninterrupted availability and accessibility of essential medicines
